**Offer ends
31st March
2012, don't
delay!**

Discounted PV Offer

BeGreen

Lothian Solar

System Size	Approx. roof area	Installed system cost incl. VAT	Potential savings in first year*
1.88kWp	14m ²	£5,692	£440-£762
2.35kWp	17m ²	£6,293	£550-£1,000
2.82kWp	20m ²	£6,926	£660-£1,176
3.29kWp	24m ²	£7,680	£770-£1,373
3.76kWp	28m ²	£8,872	£879-£1,569

These installation costs are valid until 31st March for most installations. A few more complex installations (eg. requiring extra scaffolding) may incur an extra charge.

Savings assume that around 50% of electricity generated will be used by your household. The Government 'Feed in Tariff' (FIT) is payable for 25 years and pays a set rate for every unit of electricity generated with a further payment for electricity you don't use that is fed back into the grid and. **The FIT rate will depend on the installation date. A higher rate may be paid for installations registered before 3rd March 2012.** See Energy Saving Trust website for up to date FIT information: www.energysavingtrust.org.uk
